

PHOENIX ACADEMY SEND INFORMATION REPORT

Introduction:

At Phoenix Academy, we believe in equal opportunities for all, and aim to ensure that our provision for children with Special Educational Needs and Disabilities (SEND) offers appropriate support for those facing barriers to their learning. At the school, we provide experienced support for all four broad areas of Special Educational Need: Learning and Cognition; Communication and Interaction; Social, Emotional and Mental Health; and Sensory and Physical Needs.

Our SENCo, Michelle Copeland, is experienced in ensuring that suitable provision is offered to all students with additional needs. She is supported by a team of knowledgeable and qualified staff, consisting of both employees at the school and external specialists.

At Future Academies, Gary Aubin supervises SEND across our schools to ensure that it is of the highest standards and that children on the SEND register are being supported to achieve their full potential.

1. What kinds of Special Educational Needs are provided for at Phoenix Academy?

SEND areas of need

Within the SEND Code of Practice it is identified that there are four broad areas of need:

1. Communication and Interaction Needs
2. Cognition and Learning Needs
3. Social, Emotional, Mental health Needs
4. Sensory and/or Physical Needs

These four broad areas are defined as:

1. **Communication and Interaction** – for students who have speech, language and communication needs, a specific language impairment or a range of communication difficulties. One such communication difficulty may include Autistic Spectrum Condition (ASC)
2. **Cognition and Learning** – for students with specific learning difficulties such as dyslexia, or moderate learning difficulties that affect students in a range of cognitive areas
3. **Social, Emotional, Mental Health** – for students who struggle to engage in the social aspects of school, or who find it hard to cope with challenging emotions. This will range from students needing short-term assistance during a turbulent time in their life, to students with a recognised condition such as ADD or ADHD.
4. **Sensory and/or Physical needs** – for students who have a physical disability and may need support to access the school site, or students with a visual and/or hearing impairment who may need extra support to access the curriculum.

Phoenix Academy is also committed to ensuring that pupils with medical conditions are properly supported in school so that they can:

- a) play a full and active role in school life
 - b) access and enjoy the same opportunities at school as any other child, including school trips and physical education
 - c) remain healthy and safe
 - d) achieve their academic potential
- If a student has a medical need, they will have a Care Plan which is compiled in consultation with parents under the guidance of the school nurse and/or welfare officer. The plan is discussed with all staff who are involved with the student.
 - Staff receive regular medical training delivered by the school nurse and are aware of where they can access further information as necessary.
 - Where necessary, and in agreement with parents, medicines are administered in school, but only with signed parental consent and with medicines in the original packaging.
- *2. Who are the best people to talk to about my child's difficulty, Special Educational Needs, or disability?*
 - Talk to your child's tutor about your concerns. If the concern is with a particular subject, you should speak to your child's subject teacher.
 - It is likely that the class teacher will have discussed your concerns with Michelle Copeland, the school SENDCo. You may wish to email, telephone or arrange a meeting with the SENDCo. Her contact details are mcopeland@phoenxiacademy.org.uk or 020 8749 1141.
 - If you continue to have concerns you can arrange to discuss these with Tony MacDowall, the Headteacher. The CEO, Paul Smith, can be contacted for any concerns that need to be expressed to the Governing Body.

3. How do we identify and assess pupils with SEND?

- The SEND Admissions process informs us of those with Educational Health Care Plans. For students with such plans, we are able to plan for as seamless a transition as possible in meeting their needs in their new secondary provision.
- We also gain information about students' SEND before they arrive, through:
 - I. Parent-supplied information on school application forms and at entry interviews;
 - II. Shared communication between primary schools and Phoenix Academy on the specific needs of individual pupils, in the summer term prior to the child starting;
 - III. Close liaison with parents and primary SENDCos before a pupil joins us in Year 7 to ensure continuity of care, especially where diagnoses exist for a child or where an EHC Plan states certain types of provision;
 - IV. In-school testing of all Year 7 pupils prior to them starting at Phoenix Academy, including the NGRT reading test, Pupils Attitudes to School Survey and Cognitive Ability Tests.

Once students have begun their time at Phoenix Academy, further identification and assessment can be done through:

- I. In-class observations of all classes for the first weeks of term for Year 7 classes;
- II. Teacher feedback and continual progress-monitoring to inform where a child may need extra support;
- III. Student Support meetings between each Year team (Head of Year and Pastoral Support Manager) and the Inclusion team, including the SENDCo.
 - Further specific screening tests can be carried out according to need to recognise students with traits of dyslexia or dyscalculia, as well as tests that look at handwriting speed, spelling accuracy and reading ability.
 - In more complex cases, we feed into external services including speech and language therapy, the Educational Psychology Service, Child and Adult Mental Health Services (CAMHS) and Visual/Hearing Impairment Services.

Admissions arrangements

[For full information on our admissions arrangements see our Admissions page.](#)

4. How are students supported to be part of the school setting?

- Efforts are made to ensure full access for all students to the school building. Where this is not possible, we work with families to consider appropriate adjustments, such as a class being moved to a floor/part of the school that doesn't require stairs to be climbed.
- We take account of equality issues in relation to admissions and exclusions, the way we provide education for our students and the way we provide access for students to facilities and services.
- The Phoenix Academy policy on behaviour takes full account of the new duties under the Equality Act.
- We actively promote equality and diversity through the curriculum and by creating an environment that champions respect for all.
- Full information can be found in our Disability and Accessibility policy.

5. How does Phoenix Academy address bullying?

- Our Anti-Bullying Policy makes it clear that all our students have the right to feel safe from bullying.
- We have a robust and consistent approach to bullying, which makes it clear that bullying will not be tolerated. Students with SEND may be more vulnerable to bullying and harassment, and so particular care is taken to ensure that they feel supported and that any incidents are dealt with promptly.
- Full information about how we deal with bullying can be found in our Anti-Bullying Policy.

6. How is my child included in all the same activities as his/her peers at school?

- Phoenix Academy is an inclusive school, committed to providing equal opportunities for all children.
- Educational Enrichment is one of the core pillars of the school and we are committed to ensuring it is inclusive for SEND students. School clubs, educational visits and residential trips are available to all children.
- When necessary, the school will make reasonable adjustments to ensure that children with SEND are included in all activities.

- You should also feel free to contact your child's tutor or the SENDCo if you have any concerns.

7. How does Phoenix Academy ensure the teaching staff are appropriately trained to support my child's special educational needs or disability?

- At Phoenix Academy we believe that your child's learning needs will first be met through the high quality teaching delivered by his/her class teacher.
- Regular professional development ensures that staff at Phoenix Academy are fully aware of how to cater for a range of Special Educational Needs. Provision for SEND is not a bolt on but is integral to everything we do.

The Inclusion Department team are in regular communication with teaching staff to make sure that everyone is aware of what Special Educational Needs there are within the school and how to help support those needs in the classroom.

- The school is able to access training programmes from different organisations including Hammersmith and Fulham.
- Individual training can also be arranged when necessary.

8. How will Phoenix Academy support my child in transition stages?

- We liaise closely with the local primary schools to ensure we know as much as possible about the support needs of our new students. We are able to discuss with the relevant teachers any individual needs and meet all new parents and students in the summer term before students begin Year 7. We also run a transition group for students who we believe may find transition challenging. Students who need additional support with behaviour, special educational needs or other pastoral concerns will have four opportunities to visit Phoenix Academy, as part of the 'Going Places' programme.
- When Year 7 students start in September, they have their own designated playgrounds and an early lunch time during the initial period.
- At Phoenix Academy, we take care to ensure that during transition points (between classes, each year and at the end of Key Stages) all staff are aware of individual pupils' needs, learning progress and the best strategies to support their learning. This happens through effective use of data, an Inclusion Department that communicates well with all teaching staff, and strong systems for reporting progress.
- If your child has an EHC Plan, we will participate in and/or facilitate their annual review in sufficient time prior to them moving between key phases of education. You will be kept informed of these arrangements and be asked to attend the reviews.
- From Year 9, all EHC Plan reviews will have a focus on preparing for adulthood including employment, independent living and participation in society. We support students in their applications to further and higher education or training upon leaving Phoenix Academy.
- If a student leaves Phoenix Academy to join another school we will ensure all relevant information is shared, in agreement with parents/ carers.
- During Year 11 the Inclusion Department staff will support many students with SEND with applications for school, college, apprenticeships or employment opportunities.

9. How will the curriculum and the school environment be matched to my child's needs?

At Phoenix Academy, we believe that your child's learning needs will first be met through the high-quality teaching delivered by their class teacher.

We carefully plan our knowledge-rich curriculum to match the age, ability and needs of all children. Differentiation is built into all teachers' lesson planning and delivery. The class teacher will adapt lesson planning and teaching to match your child's special educational needs and/or disability. Many of your child's lessons will be taught with other students who have a similar ability in that subject. Teachers are therefore able to pitch the lesson at a level that supports but also challenges your child in their learning.

Additional specialist advice is sought when appropriate and, when necessary, accessibility aids and technology may be used to support your child's learning.

Phoenix Academy regularly reviews its Accessibility Plan to ensure that all children have the fullest access to the curriculum and the school site as possible.

Assessment points spread throughout the year help teachers to fully understand your child's progress, and to adjust their planning, teaching and feedback accordingly. We know the needs of our students very well, and use data in order to inform our planning and to identify targets to achieve improvements. We take action to close any gaps; for example, for those making slow progress in acquiring age-appropriate literacy and number skills, we will take positive and proportionate action, such as targeted support or intervention.

If appropriate, specialist resources may be given to the student e.g. writing slopes, coloured overlays, large print materials or notebooks.

10. How will you support my child to reach their learning outcomes?

Every Department in the school has responsibility for ensuring that your child is able to achieve in their subject. Their progress will be closely tracked, and fed back to parents throughout the year. Many students will also have support from Teaching Assistants in class.

External agencies and specialists may also review your child's progress and adapt their planning accordingly.

Our approach to teaching students with Special Educational Needs and Disabilities:

A range of interventions are run to support students. The intervention provided takes a three-tiered approach to supporting learning:

Universal – this is the teaching your child receives from their class teacher. It is the most fundamental way in which your child's needs will be met in school. Inclusive teaching means that, in the vast majority of cases, small adaptations made by the teacher will ensure access for all, without the need for your child to be taught a separate curriculum or taught outside the mainstream classroom. The work of the SENDCO and other colleagues makes this a reality.

Targeted - it may be appropriate to consider making additional short-term special educational provision to remove or reduce any obstacles to your child's learning. This takes the form of a graduated four-part approach:

- assessing your child's needs.
- planning the most effective and appropriate intervention.
- providing this intervention.
- reviewing the impact on your child's progress towards individual learning outcomes.

Sometimes this intervention may take place outside the classroom, as a 1-to-1 or with a small group of students. These will be limited to a number of weeks to minimise disruption to the regular curriculum. You will be kept informed of your child's progress towards learning outcomes.

Specialist – it may be necessary to seek specialist advice and regular long-term support from a specialist professional within the school. Such specialists may include Speech and Language Therapists or Educational Psychologists. Sometimes the school will enlist the services of external professionals, such as occupational therapists, sensory advisory teachers or other services provided by the Local Authority. The school may need to prioritise referrals to these services. However, for a very small number of students, access to these specialists may be through an EHC Plan.

11. How will the school know that the support has made a difference to my child's learning, and how can my child and I be included in the review process?

Your child's progress will be assessed both in terms of their regular learning within the class and with regard to specific intervention programmes. Written reports will be sent home after every Assessment Point.

Every method of supporting a child in Phoenix Academy has clearly identified measures of success. This will include feedback from the child and parents, as well as the use of data to assess impact, and feedback from teachers where appropriate. You and your child will be kept informed, and encouraged to be actively involved at all stages of this support.

All students and their parents/carers are invited to meet teaching staff and Inclusion Department staff at parents' evenings to discuss progress and any concerns. All students with EHC Plans will have annual reviews to monitor progress against objectives and plan future objectives, in partnership with parents.

12. How does Phoenix Academy ensure staff are appropriately trained to support my child's special educational needs or disability?

At Phoenix Academy we believe that your child's learning needs will first be met through the high quality teaching delivered by his/her class teacher. Regular professional development ensures that staff at Phoenix Academy are fully aware of how to cater for a range of Special Educational Needs. The Inclusion Department team are in regular communication with teaching staff to make sure that everyone is aware of what Special Educational Needs there are within the school, and how to help support those needs within the classroom. The school is able to access training programmes from different providers. Individual training can also be arranged when necessary.

13. How will the school consider my views and those of my child with regard to his/her difficulties with learning, special educational needs or disability?

- We encourage parental involvement in any support we provide. We believe that it is essential for us to understand your view, as well as the views of your child, in any difficulties they may experience with their learning.
- You will be able to share your views over email, by phoning the Inclusion Department, or by arranging a meeting with one of the Inclusion Team. We will always endeavour to respond to your views and where possible to act upon them.
- If your child has an identified Special Educational Need, you will be invited to attend the school to discuss current progress, support strategies being used and expected outcomes via the pupil profile meeting. This may be with a member of the Inclusion Department or a key member of school staff.

If your child has an Education, Health and Care (EHC) Plan, you and your child will be able to share your views at the Annual Review.

- All parents are also encouraged to have discussions with class teachers, to attend Parents’ Forums, Academic Review Day, and to ensure that their child completes home learning to a high standard.
- We will carry out Parent and Student Voice activities throughout the year to better understand the views of students with SEND.

14. How will you help me to support my child’s learning?

- The school provides parents with advice on how to support your child’s homework. Parents are always welcome to contact their child’s Form Tutor for more specific advice at any time.
- Parents will be invited to attend other specific events during the year e.g. Options Evening which give further support to parents and students.
- Your child’s recent Pupil Profile will include a section on support strategies, many of which apply to home as well as school life. If you are not sure how you can apply them, contact the author of the report for further information.
- Annual reports written at Phoenix Academy often contain advice that will be discussed and developed with you at the face-to-face Annual Review meeting.
- Parents are always welcome to contact their child’s support team for ongoing advice.

15. What support can students receive while taking tests and exams?

We follow the guidelines outlined by the Joint Council for Qualifications (JCQ). A student may be eligible for access arrangements (such as extra time, supervised rest breaks or use of a reader) if he/she meets certain pre-defined criteria, including whether it is the child’s ‘normal way of working’. For full information on access arrangements, click on the JCQ website:

<http://www.jcq.org.uk/exams-office/access-arrangements-and-special-consideration>

Students who are on the SEND register are automatically tested to ascertain whether they meet the criteria. Other students are nominated by parents or teachers. Only small numbers of students are granted permission to have special consideration for examinations. In this case, parents and students are informed well in advance of the examination.

15. What specialist services and expertise are available at or accessed by the school?

Educational Psychologist	The School has a designated Educational Psychologist who visits regularly. This enables us to access a range of consultation services, assessment and intervention support as well as training. Our Educational Psychologist consults with parents and staff to explore issues that may interfere with a student’s learning. Strategies discussed between the people involved in a child's education are hoped to promote progress and inclusion using knowledge, experience and relevant research.
CAMHS (Child and Adolescent Mental Health Service)	Where necessary, we are able to refer students to CAMHS directly. Parents can also refer to CAMHS via their GP. CAMHS provide outpatient assessment and treatment for children and young people with emotional and behavioural difficulties. Team members are likely to include child and adolescent psychiatrists, social workers, clinical psychologists, community psychiatric nurses, child psychotherapists, occupational therapists, as well as art, music and drama therapists.

ACE Team	Our Attendance Support Officer visits the school on a weekly basis. Students whose attendance has dipped below 85% are referred to the service. By law, children aged between five and 16 must receive a full-time education. Parents are responsible for making sure this happens.
Social Services	If the school has a concern about a child or young person who may be suffering harm we immediately contact the Referral and Assessment Team for advice and support. We also liaise closely when one of our students is Looked After by the Local Authority, is subject to a Child Protection Plan or is considered a Child in Need.
Speech and Language Therapy	The School has a designated Speech and Language Therapy Service. Our speech and language therapists provide specialist advice, assessment and intervention for children and young people who have difficulties with any aspect of their communication. They also offer training and support to staff on all aspects of language and communication.
School nurse	<p>The school has a designated school nurse who visits regularly. The school nurse offers a wide ranging service which includes:</p> <p>Health screening;</p> <p>Creating care plans for students with additional health needs (for example diabetes, asthma, epilepsy);</p> <p>Ad hoc health assessments relating to concerns around child protection and child in need reviews;</p> <p>Health promotion - providing advice on a range of topics, including: sexual health, smoking, maintaining a healthy weight and drugs and alcohol.</p>
Aspire (Alternative Provision)	Where a student's behaviour presents a barrier to learning that can not immediately be met by Phoenix Academy, your child may be referred to Aspire. This may include a short-term provision or a longer-term option but the intention will always be to integrate your child back into the mainstream school. Aspire will provide a bespoke academic and therapeutic curriculum to support this.

17. What is an EHC Plan, and who can request one for my child?

The purpose of an EHC Plan is to make special educational provision to meet the Special Educational Needs of a child or young person, to secure improved outcomes for him/her across education, health and social care and, as he/she gets older, prepare for adulthood.

An EHC Plan will:

- detail the views and aspirations of you and your child;
- give a full description of his/her Special Educational Needs and any health and social care needs;
- establish outcomes for your child's progress;
- specify the provision required, and how education, health and social care will work together to meet your child's needs, and support the achievement of agreed outcomes.

You, your child (where appropriate and aged 16 and over and/or the school can request that the Local Authority conducts an assessment of your child's needs). If the school is making a referral, this will be done by the SENDCo. This may lead to an EHC Plan.

For full information on the EHC process, please read Chapter 9 of the SEND Code of Practice 0-25. For those students with the highest level of need, it may be appropriate for the SENDCo, parents or the young person themselves (if over 16) to request an Education, Health and Care (EHC) assessment.

Students and their parents are strongly encouraged and supported to be active participants in this process. We have an expectation that parents and the young person are fully included in the EHC assessment process from the start, are fully aware of their opportunities to offer views and information, and are consulted about the content of the plan.

18. How will the school fund SEND support?

- There are three-different elements of funding for schools that are relevant for students with SEND:
- Pupil-led funding: This is the basic per pupil funding that schools receive for every child whether or not they have SEN.
- Notional SEN funding: This is an identified figure within the pupil-led funding that each school receives annually. This element of funding is used to fund the special educational provision for children with school-based SEN and a proportion (£6,000) of funding for children with EHC Plans.
- 'Top up' funding for individual pupils: This funding comes from the Local Authority, as and when required and on the basis of the child's assessed needs. It is usually used to fund support for children with an EHC Plan. The expectation is that a mainstream school must provide an additional £6,000 of support for each individual child with SEN before they can access top up funding.

19. How are the school's resources allocated and matched to the student's special educational needs?

The notional SEN funding is allocated each financial year. This funding is used for a wide range of purposes that support students with SEND, such as:

- Enhancing high quality teaching: Our whole school priority is to continually improve the quality of teaching and learning for all students, including those with SEND.
- Employing specialist staff to support students with SEND, such as Teaching Assistants and other staff within the Inclusion Department.
- Purchasing appropriate resources such as differentiated materials for low prior attaining students or literacy materials.

- Purchasing services such as Educational Psychology or Speech and Language Therapists.
- Paying for training for staff to ensure they are aware of the latest research and developments on a wide range of SEND.
- Providing additional support and/or resources dependent on an individual's or cohort's needs.
- Contributing the first £6,000 towards funding for students with an EHC Plan.

20. How will the school let me know if they have any concerns about my child's learning, special educational needs or disability?

- Your child's class teacher or tutor may initially speak to you over the phone about your child's learning.
- The SENDCo or an Inclusion administrator may contact you and arrange a meeting to discuss your child's difficulties with learning and any possible support strategies the school might be considering.
- If your child is taking part in an intervention to support their learning, you will be informed about what this intervention is and what the learning outcomes for it are.

21. How is the support allocated to children, and how do they move between the different levels of support in school?

- Phoenix Academy receives funding that includes funds to support the learning of children with SEN and/or disabilities.
- The Trust, in consultation with the school Governors, decides the budget for SEN provision on the basis of the needs of the children in school.
- The Head of SEND for the Trust and the SENDCo discuss the effectiveness of the school's current interventions and provisions and prioritise an action plan, which may include additional or alternative interventions, staff training and equipment needs. This process is reviewed regularly to ensure the best possible intervention is provided to those children who require additional support to learn.
- Our Expression of Concern system means that any member of staff can bring a student to the attention of the Inclusion Department, who can then assess the level of support needed.

22. Who can I contact if I have a complaint about the SEND provision made for my child?

- Initially, speak with your child's teacher and/or the SENDCo, Michelle Copeland. Hopefully they will be able to address your concerns. Her contact details are mcopeland@phoenixacademy.org.uk or 020 8749 1141.
- You can then contact the Principal, who may direct you to the school's Complaints Policy and procedure.

23. If I have any other questions about my child's learning while they are at Phoenix Academy, who can I ask?

At Phoenix Academy, we are very happy to speak to you about any aspects of your child's education. It is best to speak to one of the following in this order:

- I. The tutor /subject teacher
- II. The Head of Year/PSM
- III. The SENDCo

- IV. The Principal
- V. The CEO, Paul Smith can be contacted for any concerns that need to be expressed to the Governing Body.

24. How can I find information about the local authority's Local Offer of services and provision for children and young people with special educational needs and disability?

The Hammersmith and Fulham Local Offer can be accessed through the following address:

- : <http://search3.openobjects.com/kb5/lbhf/fis/localoffer.page?localofferchannel=0>

If parents/carers would like to use the Local Offer, but they cannot access the internet, they can contact their local library or Children's Centre.
